

 We evolve beyond the obvious and make a positive impact on people's lives

# Laboratory Equipment & Computerized Systems Supervisor (Ref: LabE0624)

## About the company

**RAFARM** is an innovation-driven, dynamically growing pharmaceutical company and a well-established European manufacturer with an outward-looking orientation that invests 13% of net turnover in Research and Development. We introduce high technology in our state-of-the-art sterile manufacturing plant and create new production lines with cutting-edge technology and robotic equipment. RAFARM is a place where our people evolve and are full of passion and interests. We are a dynamic team that empowers talent, embraces diversity and accelerates development.

#### About the role

Our **Global Quality** department is expanding, and we are in search of a diligent and meticulous **Laboratory Equipment & Computerized Systems Supervisor**. This role will be pivotal in upholding quality standards, verifying and ensuring the integrity, reliability, and compliance with regulatory guidelines of computer systems and laboratory equipment used for the timely release of our pharmaceutical products.

### The role main accountabilities will be the following:

- Participation in lab software selection and relevant lab improvements plan. Preparation of the URS with the stakeholders
- Generate, execute, complete and review validation documentation required, such as Traceability Matrix, URS, IQ/OQ/PQ protocols and summary reports.
- Execute risks and gap assessments to current guidelines
- Coordinate, and lead validation efforts, for laboratory equipment and computer system validation.
- Facilitate and/or support validation training, change control, periodic review of validated systems, equipment and processes.
- Analytical Lab Instrument Hardware Troubleshooting
- Issuance SOPs and quality policies

#### **Experience & Qualification Standards:**

- University degree in chemical or chemical engineering or relevant scientific discipline
- Minimum 2 years of experience in handling-trouble shooting of analytical instrumentation (HPLC/GC/AAS) desirable.
- Highly detail-oriented and organized, able to work both independently and as a team player with a positive attitude
- Fluent in English and MS office proficient
- Self-motivated, flexible, and adaptable

 We evolve beyond the obvious and make a positive impact on people's lives

## **Benefits**

- Competitive Compensation
- Private Health Insurance
- Career Development Opportunities
- Work-Life Balance
- Innovative Work Environment
- Community Engagement
- Recognition and Rewards

# Why Join Us
